

Below are a variety of maths questions which your child should be able to do. They may need support to read some of the questions. They also need to label the time on the clock in the middle please (please use correct vocabulary e.g. o'clock/half past rather than a digital time).

middle

1

Count the amount of money.

Answer the question by adding more.

2

There are three marbles in a bag and I add four more.

How many marbles do I have now?

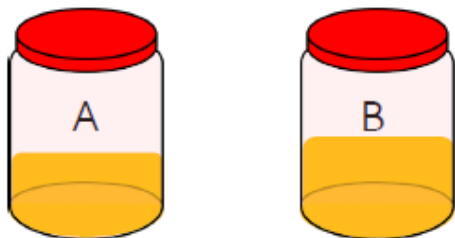

_____ + _____ = _____

There are _____ marbles.

3

Add the words 'more than' or 'less than'.

more than less than

A has _____ B.

Calculate.

4

= 94 - 56

= half of 96 - 2 tens and 9 ones
