

# Coronavirus - Missing My Friends

Coronavirus is a new type of cold and some of my friends are not coming to school.

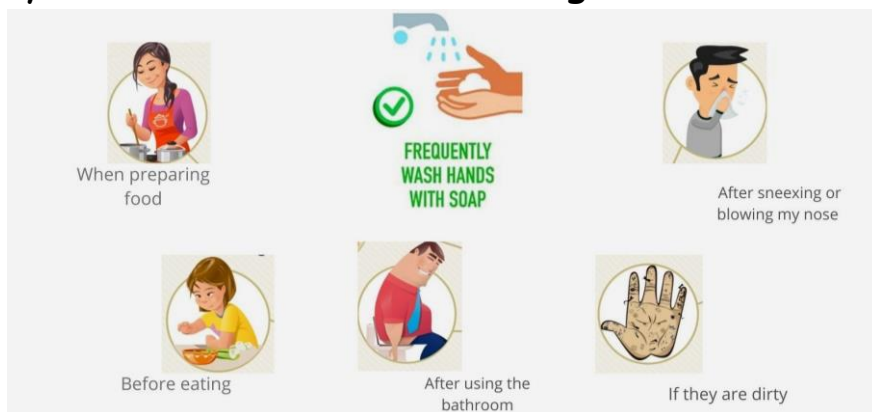

Just like all other colds it is important to be healthy

My friends will be staying healthy by staying inside their house

Me and my friends will all be following the hand washing rules

I may not see my friends for a while I will miss them

My friends will miss me too

We will miss you  
thiiiiis much!

It is ok to miss each other

I can draw pictures or write notes to give to  
them when I see them again
