Growth Mind-set

At Paulton Infant School we work hard to encourage good learning attitudes through a 'Growth Mind-set' approach.

We know that learning is an ongoing process and we are doing it all the time.

We accept that making mistakes is a huge part of learning

We know that we can do it, but maybe not yet and that with practice we improve and get better.

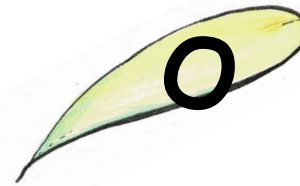

Respect

We encourage respect for all members of our school and the wider community.

We encompass respect through our school rules.

We recognise that responsibility is a hugely important life skill and provides opportunities for children to take responsibility in school life

- School Council
- Eco Warriors
- Classroom jobs

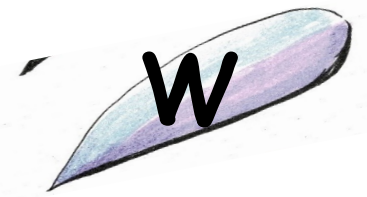

Opportunity

Paulton Infant School advocate opportunities for all individuals regardless of their background or personal situations.

We endeavour to provide opportunities for children to become involved in school life and experience responsibilities.

We open up opportunities for wider learning through exciting community links, clubs and extra-curricular visits as part of our exciting and engaging curriculum.

Wellbeing

Wellbeing is at the heart of everything we do!

We use brain breaks to help us focus with our learning through the use of go noodle exercises.

We implement regular yoga sessions and start each afternoon with mindfulness time to help us be calm and ready for learning.

We positively explore mental health and emotions through the use of our PSHE scheme.
